Thesis: course-taking recommendation system using genetic algorithms and constraint satisfaction (CodeIgniter, JavaScript).

VOCATIONAL HIGH SCHOOL

SMK N 1 Denpasar

Major: Software Engineering (RPL)

2009 - 2012

PROFILE

Web developer with ten years of experience delivering and maintaining production websites for digital agencies and in-house teams. Specialises in WordPress, with hands-on experience in Shopify, Next.js and full-stack PHP. Turns Figma and Adobe XD designs into clean, responsive builds that load fast and stay easy to maintain, and has kept portfolios of 20+ live sites stable and up to date. Communicates clearly with designers, clients and non-technical stakeholders, backed by thorough technical documentation.

EXPERIENCE

WEB DEVELOPER

Kesato & Co Digital Agency - Bali

2020 - Present

- Build and launch client websites using WordPress, Shopify and Next.js.
- Convert Figma and Adobe XD designs into pixel-accurate, responsive front-ends.
- Maintain and optimise live client sites, improving page speed and uptime.

HEAD OF IT DIVISION & WEB DEVELOPER

Total Bali & Api Pacific - Bali

2016 - 2020

- Led development and maintenance of a portfolio of 20+ company websites across villa rental, insurance and retail.
- Managed the full stack for each site, from hosting and deployment through to front-end updates.
- Oversaw office network and internet infrastructure.

FREELANCE WEB DEVELOPER

Yogyakarta

2015 - 2016

- Built a hospital management information system (SIMRS) for Datu Rantau Hospital using CodeIgniter.
- Developed a futsal court booking platform as full-stack developer.
- Built the online voting system for the FTI & BEMU UKDW student elections.
